

How to create value for discount percentage after entering data

In user /blade view create button to show info

```
<td><a href="{{route('pay_info1.reword3',$s1)}}">اعرض كل المكافآت</td>
```

In web route

```
Route::get('users/reword3/{id}', [PaymentsController::class, 'show'])
->name('pay_info1.reword3');
```

In payments controller show function

```
public function show($id)
{
    // $user_info= User::where('id',$id)->get(); // user with id
    $posts1 = DB::table('users')
    // Select all value of the user related to finance table
    ->join('payments', 'users.id', '=', 'payments.user_id')
    ->join('finance_degrees','users.position_id','=', 'finance_degrees.id')

    ->select( 'users.*','payments.*','finance_degrees.*','finance_degrees.id as
finance_position_id','users.id as user_info_id') // Select all columns
    ->where('users.id',$id)
    ->get();

    $id2= $posts1->value('dis_role_title') ;
    $discount = DB::table('discount_precent')

    -
    >join('finance_degrees','discount_precent.id','=', 'finance_degrees.dis_role_title')

    ->select( 'discount_precent.*','finance_degrees.*') // Select all columns
    ->where('discount_precent.id', $id2)
    ->get();

    //return $posts.$discount ;
    return view('userinfo.payment.enter_payment2',compact
('posts1','discount'));
```

```
}
```

In `view/enter.payment2`

Table logic

```
<tbody>
  @if(!empty($posts1))
  @foreach($posts1 as $p1)

    <tr>
      <td>{{ $i=$i+1 }}</td>
      <td width="5%">{{ $p1->name }}</td>
      <td width="5%">{{ $p1->pay_title }}</td>
      <td width="5%">{{ $p1->payment_value }}</td>
      @foreach($discount as $dis)
        <td width="5%">{{ $dis->dis_total }}</td>
        <td width="5%">{{ $dis->reward_total }}</td>
      @php
        // logic for creating discount percentage

        echo $r= (($p1->payment_value * $dis->dis_total) / 100);

        $t=($p1->payment_value * $dis->reward_total) / 100;
        $z=($p1->payment_value + $t) - $r;
      @endphp

      <td width="5%">{{ $z }}</td>
    @endforeach
  <td width="10%">
```
